**MVP's College of Pharmacy, Nashik**

**F. Y. D. PHARMACY**

**(A. Y. 2025-26)**

**(21 December 2025)**

# INDUSTRIAL VISIT REPORT

D. Pharmacy (First Year)

## 1. Basic Details

Date of Visit: 21st December 2025

Class: First Year D. Pharmacy (F.Y.D.Pharm.)

Number of Students: 40

Faculty Accompanying: 4 Faculty Members

Lab Assistant: 1

Place of Visit: Reve Pharma

Location: STICE, 78, Musalgaon Industrial Area,

Maharashtra, 422112

## 2. Objective of the Visit

The industrial visit was organized to provide students with practical exposure to pharmaceutical manufacturing processes and to bridge the gap between theoretical knowledge and industrial practices. The key objectives were:

- To understand the manufacturing of pharmaceutical formulations
- To observe Good Manufacturing Practices (GMP)
- To gain knowledge about quality control and quality assurance procedures
- To familiarize students with industrial equipment and processes

## 3. Introduction to the Industry

Reve Pharma is a pharmaceutical manufacturing unit engaged in the production of various dosage forms. The industry follows standard guidelines and regulations to ensure quality, safety, and efficacy of pharmaceutical products.

## 4. Activities During the Visit

During the visit, students were guided by industry professionals and staff.

The following activities were conducted:

- Welcome & Orientation Session
- Introduction to the company profile and operations

- Briefing on safety rules and industrial discipline
- Plant Tour
- Observation of tablet and capsule manufacturing sections
- Exposure to granulation, compression, coating, and packaging processes
- Quality Control Section
- Demonstration of testing procedures
- Explanation of instruments used for analysis
- Quality Assurance
- Documentation practices
- Batch manufacturing records and SOPs

## **5. Learning Outcomes**

The visit helped students to:

- Understand real-time pharmaceutical manufacturing processes
- Learn about GMP guidelines and industrial hygiene
- Gain knowledge of quality control techniques
- Develop awareness about industrial workflow and discipline

## **6. Safety Measures Observed**

- Use of protective clothing (lab coats, masks, caps)
- Strict adherence to hygiene protocols
- Controlled entry into manufacturing areas
- Proper labeling and storage of materials

## **7. Conclusion**

The industrial visit to Reve Pharma was highly informative and beneficial for the students. It enhanced their understanding of pharmaceutical industries and provided valuable practical exposure, which will be useful in their academic and professional careers.

## **8. Acknowledgement**

We express our sincere gratitude to the management and staff of Reve Pharma for granting permission and guiding the students throughout the visit. We also thank our faculty members for organizing this educational visit successfully.
